- React.js
- Bootstrap

Backend:

- .NET (c#)

Tools & Technologies:

- Git & Github
- Visual Studio Code
- Responsive Web Design

Language

English

Profile

I'm a frontend-focused developer who enjoys turning ideas into clean, responsive, and user-friendly web experiences. I started with HTML, CSS, and JavaScript, and have grown into building dynamic interfaces with React.

I'm currently expanding into .NET to understand the full picture of web development. I enjoy learning by building, solving problems, and improving with every project.

Work Experience

may 2024 – oct 2024

Alliance Consulting and DIGITAL sOLUTIONS

Internship

- Strengthened frontend development skills by building responsive web interfaces using HTML, CSS, and JavaScript.
- Applied knowledge through personal and guided projects to improve coding and problem-solving abilities
